**Re: Letter of Support for Bay of Islands Radio Inc. (BayFM)**

To Whom It May Concern:

This letter is to confirm that Marble Mountain Resort has a community partnership with the Bay of Islands Radio Inc. (BayFM), and we support their initiative to relocate the current radio transmitter to a new location more suitable for their growing operation and growing demand in Western Newfoundland. There have been times at Marble Mountain when the signal strength was not strong enough to do a live broadcast from the base area.

By relocating the current transmitter, we believe that BayFM will have increased levels of power that will better serve the community and to help improve reception issues. Marble Mountain Resort is proud to align with BayFM knowing they are one of the last remaining local radio stations in Corner Brook to offer communications for local news, weather, local sports clubs and other community special events.

The growing demand to strengthen the radio signal is very important to the region and we feel by providing further funding and operations support to BayFM, will push the Bay of Islands Radio into greater local success and in turn heard by more listeners across the province.

If you have any further questions related to ongoing partnerships with Bay of Islands Radio and the support they are requesting from Marble Mountain Resort, please do not hesitate to connect with via phone at 709-637-1262 or by e-mail: [Richard@skimable.com](mailto:Richard@skimable.com).

Sincerely,

Richard Wells – General Manager, Marble Mountain Resort
