To Whom it May Concern:

Re: Bay of Islands Radio (BayFM)

I understand that BayFM Radio is submitting an application to move their transmitter site to a new location which will increase power levels and improve reception to better serve the Corner Brook-Bay of Islands area.

BayFM is an important media outlet for the Corner Brook-Bay of Islands Region. It provides live local broadcasting of news, weather, interviews of local importance and other services. The station has grown over the past number of years and it is so important for residents to have this local programming and information source this station provides.

I am one of the local MHA's whose District is served by BayFM. The moving of the transmitter will have a positive impact on the reception being provided to residents of the Bay of Islands especially towns which are located in the outer Bay of Islands area.

I fully support this application as the improvements will strengthen the delivery of broadcasting as well as position BayFM to strengthen their financial opportunity through increased advertising to support station operations.

I look forward to BayFM receiving a favorable response to their application.

Yours truly,

A handwritten signature in blue ink that reads "Eddie Joyce".

Edward Joyce, MHA
Humber-Bay of Islands District
